**Subject:** Application for Cybersecurity Lecturer / Teaching Assistant Position

**Dear [Hiring Manager's Name],**

I am writing to express my interest in the Cybersecurity Lecturer / Teaching Assistant position. With an NFQ Level 7 Distinction in Cyber Security, ongoing NFQ Level 8 Computing studies at the National College of Ireland, and over 25 years of operational leadership experience in the hospitality sector, I bring a unique blend of technical proficiency, industry discipline, and educational commitment to the classroom.

Throughout my academic work and portfolio projects, I have developed a strong technical foundation in network simulation, vulnerability assessment, SIEM analysis, and system hardening. As a Remote Teaching Assistant with Correlation One's Cyber Security Expert Zone, I facilitate lab sessions for 30+ learners, providing real-time technical support and structured problem-solving guidance that improves student confidence and performance. These experiences have strengthened my ability to communicate complex concepts in clear and accessible terms while fostering a positive learning environment.

Before transitioning into computing, I managed multi-department operations for major hospitality venues, where I developed and implemented data-driven systems to improve efficiency, compliance, and training outcomes. This background instilled a strong appreciation for team development, clear communication, and structured process improvement - principles that align closely with academic excellence and cybersecurity education.

I am eager to contribute to an institution that values hands-on learning and continuous innovation. My goal is to bridge academic instruction and real-world application by helping students understand how cybersecurity principles operate in practice, preparing them for meaningful careers in this rapidly evolving field.

Thank you for considering my application. I would welcome the opportunity to discuss how my experience and teaching approach can support your program's success.

Kind regards,

Bruno Suric
